

CADEN BARTLEY

(276) 477-8900 · cdbartl@clemson.edu · linkedin.com/in/caden-bartley · cadendbartley.com

Finance and accounting student in the Clemson University Honors College with a 4.0 GPA and President's List honors in each of the first two semesters. Ranked the #1 manager among 40+ across the Greater Nashville region in back-to-back seasons while directing operations at two facilities with a staff of 40. Independently designed and shipped Memrith, a cross-platform desktop application, working end-to-end with Claude Code. **Seeking a Summer 2027 internship in finance or accounting.**

EDUCATION

Clemson University — B.S., Finance & Accounting

Expected May 2029

Clemson, South Carolina · prospective double major

- **GPA: 4.0 / 4.0** — Clemson University Honors College.
- **President's List**, Fall 2025 & Spring 2026; member, Clemson Undergraduate Business Society (CUBS).
- Coursework: Financial Accounting · Microeconomics · Macroeconomics (Honors) · Business Calculus I & II. Fall 2026: Intermediate Financial Accounting I (Honors) · Cost Accounting · Business Statistics.

EXPERIENCE

Head Manager — Greater Nashville Pool Management

Summer 2025 – Present

Nashville, Tennessee

- **MVP Manager Award (2025)**: ranked #1 of 40+ managers across the region — the company's highest individual honor.
- Directed full aquatic operations across two facilities — scheduling, vendor relations, incident reporting, and regulatory compliance — with a staff of 40 lifeguards.
- Mentored junior staff and cultivated a high-performance culture through peak-season operations.

Assistant Manager — Greater Nashville Pool Management

Summer 2024

- **Manager of the Year (2024)**: the region's top manager ranking, earned in a first year of management.
- Oversaw day-to-day operations and guest relations, independently resolving operational challenges while maintaining exemplary safety records.

Lifeguard — Greater Nashville Pool Management

Summer 2023

- Promoted to assistant manager after a single season on the basis of performance, initiative, and demonstrated leadership.

PROJECTS

Memrith — Designer & Developer

May 2026 – Present

- Desktop application that gives AI a permanent, local memory — built to solve real problems with memory locked to a single model and context that collapsed under large document sets.
- Engineered end-to-end in partnership with Claude Code — Python backend, JavaScript frontend, packaging, and release pipeline; shipped for macOS and Windows with on-device semantic search, now on version 1.3.

SERVICE

Volunteer — Clemson Paralympic Soccer (CUPS)

January 2026 – Present

- Support the only collegiate Paralympic soccer program in the United States, helping run practices, matches, and adaptive programming for athletes with cerebral palsy, traumatic brain injury, stroke, or visual impairment.

SKILLS & CERTIFICATIONS

- **Technology**: Microsoft Excel · Claude Code · GitHub · ChatGPT
